

i drive a truck and have xm radio in it.the traffic and weather channels and been a big help to us on the road when we are coming into a major city, they help us avoid back ups on the interstates. And the weather updates we get have helped us plan our trips to aviod severe weather.WE urge you to reject the NAB'S petition 04-160. Xm satelite has been the best thing to happen to our industry in a long time. thank you, Linda Adkins
